

Website Proposal

THE PROJECT

A new website for Dividing Creek Fire & Rescue to help recruit volunteers, share events and fundraisers, and make it easy for the community to support the company, built from the design members have already previewed:

Preview: www.8888media.co/dividing-creek-fire-rescue

WHAT'S INCLUDED

- A custom one-page website with the company's own photos and details: what the company does, joining the company, events, supporting the company, and finding the station. Works on phones, tablets and computers.
- A "Join the Company" interest form that sends each response to the company's email.
- **Events that update automatically** from the company's Google Calendar. Officers add events from their phones, with no logins or website skills needed.
- **Built to WCAG 2.1 Level AA**, the accessibility standard named in the federal ADA rule for state and local government websites.
- The website and web address are set up in an account **owned by the company**. 8888 Media works as an invited helper whose access can be removed at any time.
- Two rounds of changes before launch, and free fixes for 30 days after.
- Submitted to Google so the site can appear in search results.

TIMELINE

About two weeks after the company's photos and details arrive and its account is set up. A private preview is reviewed and approved before anything goes live.

PRICE

\$500

One flat price for everything listed. Nothing is due until the site is finished and approved.

PAYMENT

One invoice when the website is complete and approved, payable by check to 8888 Media LLC. A W-9 is available on request.

ONGOING COSTS

- | | |
|----------------------|--|
| Web address | About \$10-\$12 a year, paid by the company. |
| Hosting | \$0 (free account in the company's name). |
| Events | \$0 (from the company's calendar). |
| Later changes | Quoted as needed after 30 days. |

WHAT WE NEED

- A contact person for approvals.
- Photos of the trucks, crew and station, and a logo or patch.
- Confirmation of the details in the design.
- An email address for form messages.
- 15 minutes to create the free website account (guide provided).
